FYI. I'm boarding a plane as I type, so I probably won't be able to respond until Monday.
Just wanted to let you know we had received feedback.

Subject: Dimock sample data

Jennie,

I am surprised and disappointed in the attached response from Ron. Is this Region III's final position on our request to cross-check the data prior to notifying the residents? I especially want to avoid alarming residents with additional data errors.

Scott: tried to call to discuss - we believe that we need to provide information to the residents before we share any results with others. We can discuss how we can resolve significant differences.

Give me a call if you wish to discuss.

Subject: Dimock sample data

Ron and Karen,

We will have our sample data for at least the first two weeks of testing compiled into an easy to review spreadsheet this week. Cabot has asked DEP to compare data and I intend to take them up on their offer. I really think it would be useful for the EPA, DEP and Cabot to compare our results prior to sending the results to the home owners to correct any data entry errors or identify significant differences in results. Let me know if this will be possible.
